# ABOUT US

CRÍMINA is a research centre belonging to Miguel Hernández University founded in 2011 and dedicated to research on security and crime prevention from a cutting-edge social science perspective.

As part of Miguel Hernández University, a modern university which is placed among the top three productive universities in research in Spain, CRÍMINA has coordinated more than 20 national and international R+D initiatives.

CRÍMINA  
crimina.es

Our staff is comprised of PhD researchers and PhD Candidates in criminal law, criminology, psychology, philosophy, statistics, and methodology. CRÍMINA also relies on practitioners from Spanish police departments and the Justice system.

## LINEs OF RESEARCH

### CRIME ANALYSIS

●  
INVESTIGATION,  
PREVENTION  
AND MITIGATION  
OF CRIME

● AI and ICT applied to (cyber)crime prevention and analysis on SMEs, public-private institutions and citizens

● Development of policing strategies for transport and road safety

● Profiling of offenders and victims based on risk, protective, and situational factors

● Crime mapping for spatial analysis of crime patterns, opportunities and geographical factors

● Security perception and insecurity feelings analysis

● Cutting-edge social research methodologies

● Human factors modelling for crime and security

● Policy-making toolkits, security strategies and legislative actions to LEAs

● Empirical legal studies and experimental designs

● Analysis of Artificial Intelligence (AI) systems and risk assessment tools, and their legal limits

● Evaluation of normative compliance standards

● Criminal law and procedural legal analysis

● Delimitation of comparative legal frameworks

### LEGAL STUDIES

●  
LEGISLATIVE  
ANALYSIS  
AND POLICY

Our spin-off Plus Ethics, provides and monitors ethical and legal design throughout R&D projects and ICT initiatives
